

SAGAMORE XVI

August 2-7, 2009

The Inn and Spa at Loretto
Santa Fe, New Mexico, USA

Topics

- Charge Density
- Electronic Structure of Nanoparticles
- Momentum Density
- Neutron Scattering
- Spin Density
- Theory and Experiment
- Time-Resolved Studies

Conference Chair

Philip Coppens (coppens@buffalo.edu)

Local Organizing Committee:

Thomas Proffen (tproffen@lanl.gov)

Alan Hurd (ajhurd@lanl.gov)

Leilani Conradson (leilani@lanl.gov)

Program and Advisory Committees

Arun Bansil, Northeastern University, USA

Malcolm Cooper, University of Warwick, UK

Yasuhiko Fujii, Japan Atomic Energy Agency (JAEA), Japan

Carlo Gatti, CNR-ISTM, Milano, Italy

Beatrice Gillon, LLB, Saclay, France

Alan Hurd, Los Alamos National Laboratory, USA

Eric Isaacs, Argonne National Laboratory, USA

Pedro Montano, Department of Energy, USA

Dwayne Miller, University of Toronto, Canada

Wolfgang Scherer, University of Augsburg, Germany

Yu Wang, National Taiwan University, Taiwan

Piere Becker, Ecole Centrale, Paris, France

Miguel Blanco, Universidad de Oviedo, Spain

Ulrich Pietsch, Universität Siegen, Germany

Alan Pinkerton, University of Toledo, USA

Jochen Schneider, LCLS/SLAC, USA and DESY, Germany

Karlheinz Schwarz, Technical University, Austria

Mark Spackman, University of Western Australia, Australia

Masaki Takata, Spring 8, Japan

Vladimir Tsirelson, Mendeleev University of Chemical Technology, Russia

Wolf Weyrich, Universität Konstanz, Germany

INVITED SPEAKERS

Keynote Speaker

J. Schneider, LCLS/SLAC, USA and DESY, Germany

Charge Density

G. Eickerling, Universität Augsburg, Germany

J. Gillet, Ecole Centrale Paris, France

B. Iversen, University of Aarhus, Denmark

L. Farrugia, University of Glasgow, UK

T. Koritsanszky, Middle Tennessee State University, USA

P. Luger, Freie Universität Berlin, Germany

M. Spackman, The University of Western Australia, Australia

M. Takata, Spring8, Japan

Electronic Structure of Nanoparticles

A.W. Castleman, Pennsylvania State University, USA

D. Talapin, University of Chicago, USA

G. Aeppli, University College, London, UK

S. Louie, University of California, Berkeley, USA

Momentum Density

Y. Sakurai, Japan Synchrotron Radiation Research Institute, Japan

A. Koizumi, University of Hyogo, Japan

K. Hamalainen, University of Helsinki, Finland

M.Z. Hasan, Princeton University, USA

B. Barbiellini, Northeastern University, USA

Neutron Scattering

C.H. Lee, Natl. Inst. for Advanced Industrial Science and Technology

J. Thompson, Los Alamos National Laboratory, USA

J.G. Park, Sungkyunkwan University, Korea

J. Chen, Universität Frankfurt, Germany

I. Schuller, University of California, San Diego, USA

Spin Density

J. Campo, Zaragoza University, Spain

V.O. Garlea, Oak Ridge National Laboratory, USA

A. Gukasov, CEA-CNRS, France

P. Steffens, Institut Laue-Langevin, France

Theory and Experiment

P. Macchi, University of Bern, Switzerland

A. Bansil, Northeastern University, USA

A.M. Pendas, Universidad de Oviedo, Spain

C. Pisani, University of Torino, Italy

W. Scherer, Universität Augsburg, Germany

G. Scuseria, Rice University, USA

Time Resolved Studies

H. Chapman, University of California, Davis, USA

E. Collet, University of Rennes, France

T. Elsaesser, Max-Born-Institute, Germany

D. Miller, University of Toronto, Canada

M.M. Nielsen, University of Copenhagen, Denmark

J. Spence, Arizona State University, USA
